

Robot Revenge

11 The year is 2053. Robots are a part of everyday life –
17 they drive hover-trains, serve in holographic-restaurants
26 and even teach in virtual-schools. They are so realistic
38 that it can be hard to know whether you are talking to
50 a fellow human or a robot (in some cases the only clue
61 is the small light that can be seen faintly glowing from
65 behind the left ear).

73 In fact, robots are becoming increasingly infuriated with
83 their place in society. A group are plotting their revenge
94 on humans. They want to teach humans a lesson – it is
105 about time that humans started to be grateful for all the
114 wonderful opportunities they have in life. The robots will
117 make them realise...
